

# ANGLOGOLD ASHANTI **SUPPORTS COVID-19 VACCINATION**

**While being vaccinated is a personal choice, it is the best way to protect yourself, your loved ones and your colleagues**

Get the facts and make sure you make the right, informed decision

**When you become eligible – GET VACCINATED**

# COVID-19 VACCINES WORK

In the UK,  
vaccines had  
prevented  
over 140,000  
hospitalisations  
by August 2021

In some US  
hospitals,  
there are no  
vaccinated  
patients in ICU  
or on ventilators

In Cape Town's  
Groote Schuur  
Hospital, only 3 of  
156 hospitalised  
Covid-19 patients  
had been  
vaccinated

Getting vaccinated is your best chance to avoid serious illness, hospitalisation and death from Covid-19

**When you become eligible – GET VACCINATED**

# COVID-19 VACCINES ARE SAFE

**The Covid-19 vaccines being used around the world have gone through rigorous testing and approval processes**

**While some people experience mild side effects after being vaccinated – these should not put you off vaccination**

Covid-19 is a serious risk to the life and health of those who contract it

**When you become eligible – GET VACCINATED**

# BEING VACCINATED IS PART OF THE ANSWER TO COVID-19

**Covid-19 has  
changed our way  
of life forever**

Vaccinations play a critical role in making this a manageable disease, and give us all the chance to start to return to normal

**But we must also remember to keep taking other precautions**

wearing face coverings

keeping our hands clean

maintaining a social distance from others

ensuring good ventilation inside

**When you become eligible – GET VACCINATED**
