

STOP!

CORONAVIRUS

DON'T BE AFRAID TO BE HONEST

**Being honest about our health will help us
beat the Coronavirus**

If we know who has the symptoms of the Coronavirus we can help them to become healthy again and stop it from spreading

We must care for and support our family members, friends, colleagues and fellow community members who feel ill or who have been exposed to the Coronavirus and encourage them to be honest about how they feel.

BE KIND. TOGETHER WE CAN STOP CORONAVIRUS.
